

## **Rock Lane Day Nursery Room Activities**

### **Babies 0-1 years**

Leaving your baby with a nursery is a big step, we will ensure all safety, emotional and physical needs of your baby and you, are met every day.

Since your baby was brought in to this world, you and your baby have been best friends in a loving home, we want your child to feel they are going from home to home with our friendly and caring staff.

You will have your child in a routine at home, to avoid any potential disruption when moving to a day nursery we will work with you to keep this feeding, changing, and sleeping routine in place at Rock Lane.

In our baby room, your child will become comfortable with familiar faces, and in a short time will recognise our staff when you bring them to the nursery.

For your baby to develop properly, baby will need time, space, toys and activities. At this early stage of your baby's development you will be aware of their need to put everything in to their mouth, all our toys and equipment will be safe and appropriate for the particular stage of development.

Our baby room will enjoy activities such as finger painting, story time, outdoor play and daily walks.

On a daily basis the baby's will be introduced to something new such as nursery rhymes, movements, textures and colours, these will promote language, physical, emotional and social development.

Having the countryside on our door step, we can take babies on long or short walks in the fresh country air.
