

Rock Lane Day Nursery Room Activities

Toddler Room 2-3 years

In our Toddler Room it will be all fun, games and watching how much your child will develop in 1 year. This will be the fun time as potty training begins, lots of messy play and games.

Your child's speech is developing more and more each day. We will build on this through educational aids, music and games.

You will be aware the concentration span of your child is starting to grow. The concentration span at this age is only less than about 10 minutes. Therefore at Rock Lane we will provide plenty of opportunity to widen this concentration span through a range of activities and play themes.

Plenty of equipment will be provided, because sometimes at this age they find it a little difficult to share with each other, but we will educate them of the importance to do so.

Free play will be introduced to enable each child to choose what they wish to play with. Pretend play will be encouraged such as dressing up, home corner, telephone etc.

It is vital that outdoor play is enjoyed daily, and again outdoor activities will be promoted at least twice daily when possible with ample equipment available to all and outdoors games introduced. Outdoor walks will also take place within the country surroundings.

All art and work will be displayed so both your child and you can see what exciting new things your child is learning.

Again we want to involve parents as much as possible and we are very open to any new ideas you may have.
