

## **Rock Lane Day Nursery Room Activities**

### **After School 5-11 years**

When we collect your child from school he/she will have had a long hard day. So when they come back to Rock Lane the first thing they will want is to kick off their shoes and relax and we will provide a snack for all children.

Our staff can supervise any homework and listen to reading at the request of a parent.

At this stage your child will probably know themselves what they would like to do. Plenty of equipment will be available to choose from. Children of this age are more confident and are able to play and integrate well together, while group games will be played and new games introduced for sports day.
